## *Sharing Christian Truth*

*At Quest Ministries we advocate a cognitive-imaginative approach to learning. This takes into account both the left-brain and right-brain ways of discerning truth. The cognitive path is seen in the presentation of Christian belief in the New Testament letters of the Apostle Paul. The imaginative approach is seen in such stories of the Bible as Daniel in the Lion's Den or David & Goliath. We discern truth most fully by developing skills in both the cognitive and the imaginative learning styles.*
